Re: Iroquois Gas Transmission System, L.P., Docket No. PF05-16  
Broadwater Energy LLC, Docket No. CP06-54  
Broadwater Pipeline LLC, Docket Nos. CP06-55 and CP06-56

Dear Ms. Salas:

By letters dated September 19, 2006 and September 26, 2006, East End Property, Company #1 LLC ("East End") submitted comments in the captioned proceedings relating to the Brookhaven Lateral Project, a proposed new gas pipeline project of Iroquois Gas Transmission System, L.P. ("Iroquois") that is presently undergoing the Commission's pre-filing review process in Docket No. PF05-16. The letters largely reiterate arguments made by East End in previous submissions in that proceeding; to the extent not already addressed by Iroquois, East End's concerns will be addressed by Iroquois as necessary, if and when Iroquois submits its application for a certificate of public convenience and necessity for the Brookhaven Lateral Project.

One allegation made by East End merits a brief response at this time, however. East End speculates in its September 19 and September 26 letters that the real purpose of the Brookhaven Lateral Project is to transport natural gas originating from the Broadwater Energy LLC project proposed in Docket No. CP06-54 to markets on Long Island and that it should, therefore, be considered related to the Broadwater project. East End's conjecture is erroneous. As discussed in the extensive materials submitted in Docket No. PF05-16 to date, the Brookhaven Lateral Project is being developed specifically in response to a request from Long Island Power Authority for transportation by Iroquois of natural gas to fuel the proposed Caithness Power Plant. It is neither related to, nor dependent in any way upon, the Broadwater project.

If you have any questions about the foregoing, or need additional information, please contact the undersigned at (203) 925-7228

Respectfully submitted,

/s/ Paul Diehl
